Subject: New Project ID

Good Morning Michael, here is information for the new project. Please let me know what other information you require.

Proposed Name: San Pedro Basin Deepwater Disposal Sites
Address: San Pedro Basin (between coast of Catalina and Long Beach CA), Los Angeles County
Site Type: State Response or NPL
Cleanup Oversight Agencies: DTSC-Site Cleanup Program
Assembly District 70
Senate District 47

Information:

The San Pedro Deepwater Disposal Sites (SPDD) consist of five sites numbered one through 5 that were permitted by the United States Army Corps of Engineer or by the California Regional Water Quality Boards for waste dumping purposes starting in 1931. SPDD Sites 1, 2 and 5 were inactive by 1971 and all Ocean Disposal was ceased in 1988 when the Marine Protection, Research and Sanctuaries Act was adopted. Refinery, chemical, oil drilling, refuse/garbage and miscellaneous waste were dumped at the sites.
